Databases	SQL, Database Management Systems, Firebase/Firestore
Tools	Git, GitHub, VS Code, XAMPP, Jupyter Notebook
Professional	Communication, Leadership, Teamwork, Problem Solving, Project Management

PROFESSIONAL EXPERIENCE

WordPress Developer Intern — 1 Year

Rex Technologies | Lahore, Pakistan

- Developed, customized, and maintained responsive WordPress websites for practical and client-focused requirements.
- Built website pages and layouts using WordPress and Elementor, with supporting HTML, CSS, JavaScript, and Bootstrap.
- Managed themes, plugins, website content, page structures, and visual components.
- Worked on live website development, testing, troubleshooting, and deployment using local development environments.
- Improved website usability, responsiveness, performance, and overall user experience.
- Collaborated with team members to understand requirements and deliver web solutions.

AI Automation & Workflow Development

- Created and explored AI-powered automation workflows using tools such as n8n.
- Worked with workflow automation, AI tool integration, prompt engineering, and automated data/email processes.
- Developed practical automation concepts for reducing repetitive tasks and improving productivity.

Web & Mobile Application Development

- Developed responsive web interfaces and academic software projects using modern development technologies.
- Worked on Flutter/Dart mobile application development with Firebase integration and mobile UI implementation.
- Applied database concepts, authentication, data handling, and software development practices in projects.

SELECTED PROJECTS

Pharmacy Management System — Developed a pharmacy management solution for inventory and record handling using SQL database concepts.

Fitness Tracker Mobile App — Worked on a cross-platform mobile application using Flutter/React Native concepts and Firebase-based functionality.

WordPress Websites — Created and customized multiple responsive WordPress websites using Elementor, themes, plugins, and custom web technologies.

AI Automation Workflows — Built practical automation workflows involving AI tools, n8n, email processes, and data-driven task automation.

Academic Programming Projects — Developed projects involving data structures, databases, algorithms, software development, and problem-solving.

EDUCATION

Bachelor of Computer Science (BSCS) — Superior University, Lahore | 2023–2027

GPA: 3.47 | Achievement: Best Database Award

F.Sc. Pre-Engineering — KIPS College, Lahore | 2021–2022

CERTIFICATIONS

- Certificate in SQL
- Web Development Certification — HTML, CSS, JavaScript, Bootstrap
- Digital Marketing Certification

ACTIVITIES & LEADERSHIP

- Active member of the AI Community at Superior University.
- Participated in workshops, seminars, academic events, and technology discussions.
- Collaborated in technology-focused initiatives and supported peers in project development and technical discussions.

CAREER OBJECTIVE

To build a professional career in Web Development, WordPress Development, Mobile App Development, and AI Automation where I can apply my technical skills, contribute to organizational growth, and continue developing as a modern technology professional.
